*"A beautiful start for little ones and their grownups
in the Montessori environment"*

MONTESSORI BEGINNINGS

The first three years of life are the most extraordinary in human development. In the first few years of life, infants develop from completely dependent beings into capable, communicating individuals who can dance, sing, and tell stories. Adults in their life crave information to understand this rapid development so they can best support children's blossoming independence.

Montessori Beginnings is a gathering of parents and caregivers with infants and toddlers from 8 weeks to 3 years of age. It is a cheerful, relaxed environment that is scaled to the comfort of very young children. Beautiful toys and handmade materials entice babies to manipulate and discover, leading to coordination of movement and refinement of senses. Movement mats, balance beams, mirrors, and more encourage babies to joyfully crawl, creep, cruise, and walk independently.

Parenting issues are discussed individually as well as in small groups, providing support to new parents from those who have "been there."
